Delivering Value
Reduced TCO and Increased ROI

Zione Solutions is a service-focused IT consulting company that helps organizations maximize their Return On Investment (ROI), drive down their Total Cost of Ownership (TCO), and helps reduce overall risk. Zione's knowledge, skills, and experience allow us to deliver measurable business & technology outcomes, and combined with our Oracle flagship product expertise and multi-cloud architecture & AI solutions, we provide a senior-led delivery model that accelerates transformation, optimization, and modernization.

Our approach provides stable, secure, resilient, and scalable environments with better analytics & visibility, and stronger safe data protections from ransomware and cyber threats. Our client success outcomes include faster modernization and technology adoption, which allows us to form long-term strategic partnerships to address evolving business needs and utilize new technology opportunities for our customers.
